Ways to your dream gown

Recommended ordering timeline:
Min. 7 months before wedding date.

3. We will take your measurements to determine the best-fitting size and place your order with the respective designer

4. Sit back and relax. Depending on the designer, it could take anywhere from **2 to 7 months** for your dress to be produced.

5. After your gown arrives, we will start the alterations approximately **1 to 1 ½ months** before your wedding or flight date.

The process usually takes an average of **3 - 4 fittings**.

Rental FAQs

Worried of missing out on new styles after booking your gown?

We have a flexible rental policy where you are allowed to exchange your gown selection once before we begin the alterations.*

Need to use your gown for a pre-wedding photoshoot?

No problem! There is additional rental charge for this. There will simply be a flat fee of \$400 to cover the additional dry cleaning and alterations charges from the second-time usage. Note that this does not apply to select popular styles. Where a second time rental fee applies, you will receive a second gown rental discount of \$500 off.

Jet setting to your beautiful destination wedding?

Simply pack and go worry-free because your gown rental is extendable up to three weeks without additional charges.*

Getting two gowns?

Enjoy **\$500 off** the rental of your second lower-priced gown.

Can you alter the gowns' length for rental?

Majority of the time, we are able to alter the lengths of the gown to each bride's height. However, there are a few select gowns where the length can't be altered due to the nature of the hemline. Please check with your stylist on the gown you are considering.

*Subject to gown availability.

Bespoke

Have a dream gown in mind that you can't find anywhere? Design your bespoke, made-to-measure gown with us and we'll materialise every inch of fabric to fit your curves and fancy.

The Process

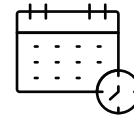

1. Schedule a free consultation with our designer

2. Bring along photos or related inspirations for your dream gown and share with us what you have in mind.

3. Our designer will sketch out several design options and propose a quote. You can decide thereafter whether you will like to proceed! A **50% deposit** is needed for us to start working on your gown.

4. From the design process, sourcing of materials and fittings, a bespoke gown takes approximately **4 to 6 months** to be produced.

5. You will have your first fitting approximately two months before your wedding and up to five rounds of fittings throughout the alterations process.

Prices start from **\$2800 & up**, with alterations included.
