

2022 | Rate Card

Meet your Team

Bottled Groove Photography started as a husband and wife team in 2016, but officially registered as a company in 2019.

Eugene, the lead photographer, first picked up photography when he was based in Bangkok for two years. He has since been actively involved in event photography and primarily weddings for the past seven years. Recently, he has revisited film photography and is currently implementing it in his wedding work. Erin is the brains behind the company, as well as the resident florist under the brand ErinFlorals.

In 2020 and 2022, the team welcomed local photographers Levin and Dexter respectively.

Bottled Groove Photography's focus is to document down your wedding day, so that you may invoke precious memories and retell your story a decade or two in the future to your loved ones. They believe that everyone should embrace the messiness of a wedding day, as raw as they come.

And yes, photographs are time machines.

What to Expect

Our Style

Our purpose is to document the day as raw as it can be. There will be less scripting but more capturing the day's little moments, as mundane or as exciting as it is. That is what makes your wedding, truly yours.

If you are looking for a photographer to take over scripted moments and plenty of beautiful photographs with bokeh (blurred out background), thus projecting a beautiful front for your wedding, then maybe we're not the right fit.

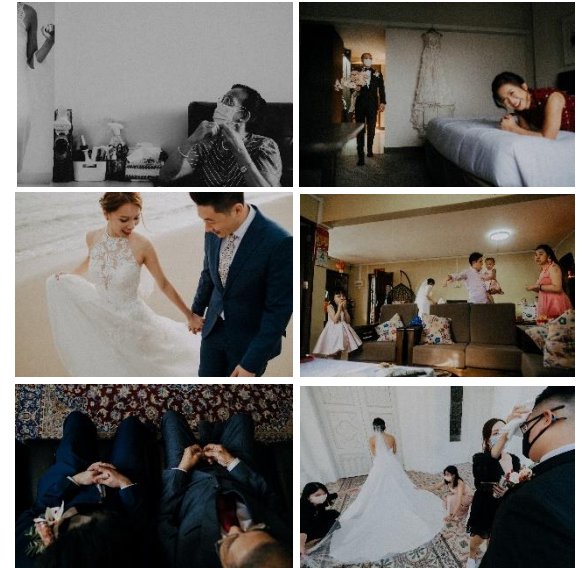

Our images we produce are not going to win awards, but if you are looking for someone to document down and story-tell (with creative input of course) the genuine, honest progression of your wedding day, however it may turn out to be, then look no further.

Our Motto

Weddings are not meant to be perfect. We should try to always *'embrace the messiness'* of the wedding day and relive the moments through the photographs that we seek to capture for you.

"It's not about finding the most expensive photographer, the most popular photographer or the most wanted photographer in town. It's important to find one that you can click & communicate with."

- Brina and Donovan

AS FEATURED ON

"The most important thing for me about a photographer is how comfortable he makes you feel and whether he is able to capture casual moments with their original emotions."

- Kim and Jun Hao

*Additional hour - \$350 per hour for Eugene | \$250 per hour for Levin | \$190 per hour for Dexter

For the brave and the adventurous, this is the quintessential Bottled Groove experience.

Experience the bustling heart of this city we call home as we walk, talk, roam and explore every nook and cranny Singapore has to offer. Spend half a day with us as we walk the streets and be spontaneous in our walkabouts. We could end up anywhere, from rustic staircases and cafes, quiet alleyways, busy traffic junctions, HDBs or even end up in an old provision shop.

Warning - only for the young and the young at heart.

Pre-wedding - The Street Walk

The Wedding Limo: <https://www.instagram.com/theweddinglimoco/> **(15% OFF)**

Frequently Asked Questions

Do we get a discount if we booked both PWS and AD together?

Yes, there will be an additional 5% OFF the total price. Note that the AD hours booked must be 6 hours and above.

Why are your photos not in focus (blur) at times?

Our focus is to capture moments and documenting down memories. Sometimes, these moments can easily slip by and we'd rather capture it than miss it. In addition, our edits is reminiscent of nostalgic film photographs. If you like tack sharp photos with overly directed poses, and overly edited photographs, then perhaps we might not be the photographers you should be looking at.

What are signature style edits?

Signature edits include making cropping, lighting, shadow and white balance adjustments with our signature colour tones. The photographs that you see on our social media pages and website are edited in our signature edits. Signature style edits do not include retouching - which are removing of acne, slimming, removing of unwanted objects etc.

Can I book you for lesser than 10 hours for Actual Day wedding / 1-hour solemnisation sessions?

Yes of course. However, prices for below 4 hours booking will be \$320 per hour for Eugene, \$260 per hour for Levin and \$190 per hour for Dexter.

For 1-hour bookings, it will be \$450 per hour for Eugene, \$350 per hour for Levin and \$250 per hour for Dexter.

Note that there will no thumbdrive and prints provided for bookings below 6 hours.

Great! I would love to proceed with the booking. How can I do so?

Once you're ready to confirm, we will send you the contract to look over some Terms and Conditions.

Simply review and sign your e-signature, together with a 50% deposit payment to book and confirm the slot.

Note that the date will still be an open date until the deposit payment is confirmed.
