5 stars for Pez, or a hundred if I could!

We engaged Pez for our Actual Day wedding last December and Pez was simply amazing. We are so glad to get Pez to document our special moments because we are so satisfied with her photos - her captures and edits are everything I've wanted it to be.

Pez was also very easy-going, patient and accommodating. We also booked her for our little pre-wedding shoot with our doggies and needless to say, the shots were so so so beautiful and cute!! I would say photoshoots with dogs weren't easy and very challenging to say, as the dogs were easily distracted but Pez was so patient and all. She was also very nice to text me prior to the photoshoot to inform me of the seemingly gloomy weather to see if we will still go ahead with the shoot or postpone it - it was a very nice gesture as we could tell she wasn't a "just-go-through-the-motion" photographer but a sincere and thoughtful one.

We highly recommend Pez for your photography needs and am already thinking to engage her for our next milestone!

FAQ

COMMON QUESTIONS ASKED BY OUR
COUPLES!

HOW LONG DOES IT TAKE TO EDIT MY WEDDING ALBUM?

We strive to have your photographs completed within 4 to 6 weeks. That said, backlogs accumulated during wedding peak season will require a great amount of post-processing time. We do not wish to compromise on the quality of our work and only want you to receive the best. As such, we may take **up to 12 weeks** (as stated in our contract) in the event that we're unable to meet the 4-6 weeks estimate. Thank you for your patience and understanding.

CAN WE GET THE RAW/ UNEDITED IMAGES?

Based on our contract, we will only deliver the final set of edited images. **No RAW images** will be returned. Should you be dissatisfied with our final edits (i.e. post-processed photos are largely deviated from PresentOnPixel's custom colors), please contact us and we will be pleased to work something out with you. We are open to feedback and hope to achieve an amicable settlement, if needed.

DO YOU HAVE A STUDIO?

No, we do not own a studio but we can most definitely still shoot in a studio if you'd prefer that. However, please note that you will have to scout for and make your own arrangements for the studio location. At PresentOnPixels, we only provide photography services.

DO YOU PROVIDE ALBUM PRINTINGS?

Albums are **not included** in our packages. However, we are happy to share that our fellow POPpers can enjoy exclusive rates for wood printing with WonderWoodWorld (as featured on our partner's page). Please note that all wood print orders are to be sent to our email only in order to enjoy the benefits.

HOW IS THE PAYMENT LIKE?

Bookings are secured upon payment; on a first come payment first basis. We will require a copy of the signed contract and a 50% deposit. Accepted payment mode includes bank transfers, PayNow and GooglePay.

I'M READY TO BOOK! WHAT'S NEXT?

POP POP HOORAY! We can't wait to get to know you on a deeper level and are thrilled to be the chosen photographer on your special day! To book, kindly fill in your wedding details on the Contact page of our website and we will be in touch with you as soon as possible.
