*A wedding video is not just a documentation of the day, but a time capsule of love, joy, and the beginning of a beautiful journey together.*

As an illustrator and photographer, my exposure to different art forms through the media industry has led me to appreciate the emotional power of videography. Through moving pictures, music, and dialogue, I capture tiny gestures and micro-expressions to create complex and beautiful videos. Marriage is a pivotal transition in life that provides the perfect opportunity to capture raw emotions, and nothing brings me more joy than a couple's appreciation of my work.

From a corporate background, I spent a decade searching for my passion. The creative industry always intrigued me, and I explored it in various ways. Volunteering at a turtle conservatory in Sri Lanka inspired me to take a leap of faith into video creation, documenting life's precious moments. Since then, I have found great joy in capturing and narrating intimate rituals and rites of passage and never looked back.
