

STORIES

WELCOME

I'd like to thank you for being here. I know wedding planning can be tough, and I want to be able to help. This will be the start of your many experiences with me, and I do place a lot of emphasis on that here.

I hope that at this point, you would already have seen a sample of my works, and maybe heard from a friend or family about their experiences with me. If not, I sincerely ask that we connect on Instagram [@stories.ryanchia](#).

This is a photography studio at its heart, it is also a place where photographs are made with the heart, where deeper connections are founded. I want to go beyond creating a beautiful set of images for you, to be the friend that understands you and is there with you through this journey. So I do request that you come with an open heart, and have a meaningful chat with me.

In the following pages, I have listed the things I can possibly help with, and I thank you once again for making it this far.

I look forward to meeting you in person.

RYAN

FOR YOU

WITH LOVE

We heard, we listened.

And these are crafted with a specific demand from some of you. These will change from time to time. We will be asking you about what you want to see going forward, and a great way to participate in this will be via our Instagram @stories.ryanchia. Let's connect there.

|| The first one is meant to feed into your unique flair, and the film photography experience will be one-of-a-kind. It will start by you choosing your own roll of film (we will advise) from available stock, and then coming up with cool concepts for the photoshoot. After the session, the film will be developed and scanned into softcopies, which will then be delivered to you via an online gallery. We dare you to be adventurous and wild, and we will be right by you for this journey.
